Durasoil® AND Gorilla Snot®

Synthetic Organic fluid for Dust Control

Letter of Introduction

Soilworks®, LLC is the innovator and manufacturer of Durasoil® dust control agent. Durasoil® is a revolutionary state-of-the-art innovation; engineered for today's challenging dust control needs. This ultra-pure, synthetic organic fluid for dust control is formulated to meet the highest standards of environmental efficacy.

Durasoil® is distinctively crystal clear, odorless and is applied neat and simple, without the need for water dilution. This technologically advanced fluid does not cure, allowing for immediate use upon its application. Furthermore, Durasoil® has the unique ability to be reworked and still maintain its dust controlling properties. Any equipment capable of spraying water can safely be used to apply Durasoil®, without any mess or damage to the equipment. Even in freezing conditions, Durasoil® can still be applied regardless of the season when water soluble products cannot. Durasoil® can be applied to any soil or aggregate and effectively suppress dust all year round.

Durasoil® has been rigorously evaluated and its performance verified by the U.S. Army Engineering Research and Development Center (ERDC) against the industry's traditional top performing dust control agents. As a result, the Department of Defense continues to award Soilworks® with contracts to supply Operation Iraqi Freedom, Enduring Freedom and the on-going Iraq rebuilding efforts with Durasoil®. Its success with the US Military and the United Nations has led to Soilworks® GSA contract (# GS-07F-5364P) and a complete listing of National Stock Numbers for the U.S. Department of Defense warehouses.

Soilworks® is dedicated to economically solving dust control challenges throughout the world's residential, commercial, industrial and military markets. For more information about Durasoil®, please visit us online at www.soilworks.com or call 1-800-545-5420.

Respectfully,

Chad Falkenberg
 President
